### About me

I am a young Software engineer dedicated to solving the societies problems. I am addicted to Emerging technologies , so I have potential and power in emerging technologies. I believe in Power of technology to making this world a better place to stay . and more than that I am big fan of collaboration

### Education

**A-levels diploma in SPE** 2013 - 2016

Rwanda COding Academy

Completed Software programming and embedded systems program for 3 years at Rwanda Coding Academy

**O-level Completion In sciences** 2010 - 2013

Fawe Girls' School

### Experience

**Backend developer** 2017-2020

Kigali Coding Company

In 2017 - 2020 I spearheaded a dev team that developed a lot of very useful Apis and a lot of systems that are currently being used in Rwanda and abroad . this turned me into a powerful developer and i gained leadership skills to co-ordinate all activities that maybe needed in this field

### Extra- curricular Activities

- Volleyball
- social media manager
- Debatiing
- ILEAD facilitator
- Dancer
- Media club

### Certificates

- Cyberium Certificate From ThinkCyber
- Best Performing Girl Certificate From Imbuto Foundation
- System testing Certificate From World developers Forum
